

DR7 DIN Rail Mounting Amplifier

- LVDT amplifier
- Strain gauge transducer amplifier
- Input/output isolation
- Simple trimpot controls
- Voltage / 4-20mA output
- DIN rail mounting Amplifier

The DR7 is a DIN rail mounting amplifier designed to install in suitable cabinets along with other similar devices.

To reduce electrical noise, system problems and the risk of accidental damage the DR7 has full isolation between supply and output.

A wide supply voltage tolerance and selectable excitation ensure that the DR7 is compatible with a very wide selection of transducers and applications.
